

Abisay Medina Rosario

Junior Data Scientist

Profile

I aim to contribute using my problem-solving, interpersonal, and time management skills. With experience in software development (Banco BHD internship and freelance), I now focus on data science and training models, seeking a role to drive decisions and excel as a data scientist.

Employment History

Software Developer Freelancer at Banco BHD, Santo Domingo

January 2023 — April 2023

- Created and implemented new functionalities to enhance the company's software solutions and improve overall performance.
- Debugged software, identified root causes, and proposed solutions to software issues.
- Established a set of best practices and documented procedures for software testing, resulting in improved accuracy and reliability of software products.

Software Development Intern at Unipago, Santo Domingo

July 2024 — September 2024

- Worked with developers to identify and eliminate software bugs.
- Learned software engineering process improvements and best practices.
- Analyzed source code to identify functionality issues.

Education

Master in Data Science y Big Data, IEBS School, Online

October 2023 — October 2024

Graduated with High Honors. Proficient in data analysis, preprocessing, and feature engineering. Skilled in machine learning models (regression, classification, clustering) and big data frameworks like Hadoop and Spark. Experienced in data visualization tools (Matplotlib, Seaborn, Tableau) and deep learning with frameworks such as TensorFlow and PyTorch.

Software Development Technician, Instituto Tecnológico de Las Américas (ITLA), Santo Domingo

September 2020 — September 2024

Graduated with High Honors. Proficient in Python and C#. Skilled in the Software Development Life Cycle, OOP, and scalable software design. Experienced in web development (HTML, CSS, JavaScript, React) and database management with SQL.

Bachelor's degree in Computer Science, Intituto Politécnico Cardenal Sancha, Santo Domingo
